

Irregular Hexagon

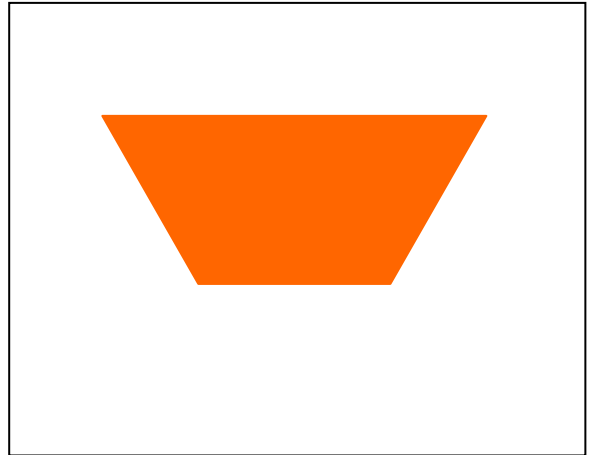

Mathematical Treasure  
Hunt

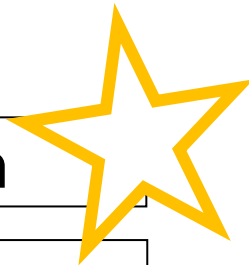

Square

Mathematical Treasure  
Hunt

Trapezium

Mathematical Treasure  
Hunt

This shape is 3D and  
has four triangular  
sides

Square based  
pyramid

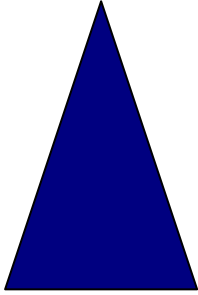

Mathematical Treasure  
Hunt

This shape has four  
sides, two pairs of sides  
are equal, one pair of  
angles are equal, no  
sides are parallel

## Kite

Mathematical Treasure  
Hunt

## Isosceles Triangle

Mathematical Treasure  
Hunt

This shape has 3 sides,  
no angles are equal, no  
sides are equal

## Scalene Triangle

Mathematical Treasure  
Hunt

This shape has a right  
angle and 3 sides

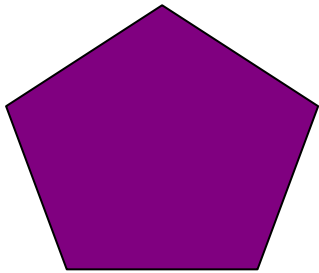

## Right angled triangle

Mathematical Treasure  
Hunt

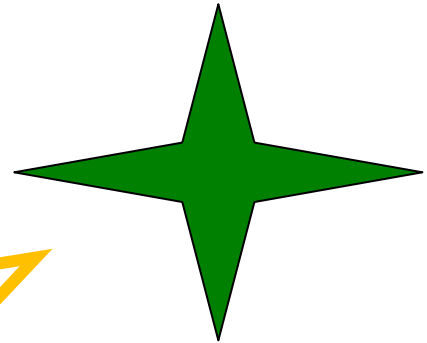

Cone

Mathematical Treasure  
Hunt

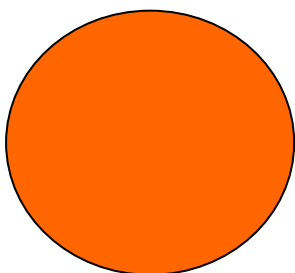

Regular Pentagon

Mathematical Treasure  
Hunt

Irregular Octagon

Mathematical Treasure  
Hunt

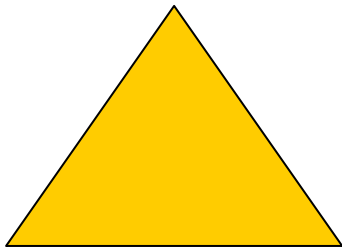

Circle

Mathematical Treasure  
Hunt

This shape has four  
sides, two pairs of sides  
are equal length, two  
pairs of angles are  
equal, no sides are  
parallel

Rhombus

Mathematical Treasure  
Hunt

Equilateral Triangle

Mathematical Treasure  
Hunt

Square based  
Pyramid

Mathematical Treasure  
Hunt

Regular Hexagon

Mathematical Treasure  
Hunt

This shape has six  
sides, all equal and six  
equal angles

Triangular Prism

Cube

Mathematical Treasure Hunt

Mathematical Treasure Hunt

This is a 3D shape with six square sides

Sphere

Cuboid
